Radio/Operational  
CAPELIN

4 April 1950

Ref: HSB-a 2333

1. We agree in the use of CAPELIN as an informant on GARTL and OUN/SS activities, as outlined in para. 1, HSB-a 2333, and for the purposes stated in para. 3. If you do not consider it inadvisable, we suggest that subject be asked to extract or summarize articles on specific topics in the Ukrainian press by way of refinement of his assignment as stated in para. 3a. Such topics as background information on UPI or OUN will be of obvious continuing interest to us; however, we are also generally interested in spot news on the personnel and the affiliations of all of the major Ukrainian political factions in Germany, with special emphasis on recent changes as they occur. The assignment outlined in para. 3a, is not of readily apparent interest, but may be of value for purposes of operational cover and will interest VLIWA.

2. If subject is to submit any lengthy reports, or extracts which you intend to send us untranslated, we prefer for the present that he write them in Polish. We can readily supply you with summaries or translations from the Polish if you request them in limited quantities.

3. In view of the fact that subject will be working primarily on matters of FBI interest, the expenditures connected with the development of this source should be charged to ABGIB rather than ASBGA for the period after 1 February 1950. We will authorize further expansion of this into a formal field project if it proves sufficiently valuable and if our efforts to show, in the directions cited, the press-censoring services conducted by Foreign Documents Division in Europe prove to be a failure. Meanwhile you are authorized to increase the monthly cost to ABGIB up to \$25 or equivalent.

4. With reference to the suggested "defections" of SWIATOSLAW (JONI KOGA), we are not fully clear as to CAPELIN's involvement. Was the use of "Ukrainian underground channels" CAPELIN's own idea or was the suggestion of their use
